AMENDMENT

Responsive to the examiner's action mailed August 19,
1998, please amend the application as follows:

In the claims:

23. (Amended) An electrode package in which one or more
adhesively-applied skin electrodes may be sealed, the electrode
package comprising:

an adhesively-applied skin electrode,
a compartment for maintaining the electrode in isolation
from an external environment, and
a connector electrically connected to the electrode and
comprising a connector body including a first end exposed to an
interior of the compartment and in isolation from the external
environment, and a second end isolated from the interior of the
compartment when the compartment maintains the electrode in
isolation from the external environment, the connector body
providing an electrically conductive path to the electrode from
outside the compartment when the compartment maintains the
electrode in isolation from the external environment,
